

The Project

Name

YMCA Wellness Center

Location

Scotch Plains, New Jersey

Client

Fanwood - Scotch Plains YMCA

Scope

1 Story + Mezzanine/ 5,000 Square Feet

Budget

\$350,000

Project Description

A growing membership demand for more / modernized exercise equipment necessitated the "Addition" of new space but without adding on to the building. The now 2nd level mezzanine allowed for doubling of the Y's aerobic exercise program equipment.

Special Consideration

Addition area added within the volume of an older existing gymnasium. The project was built out in just 9 weeks over a summer shut down period utilizing pre-engineered and readily available components. Construction management was coordinated by ArchCon Design Management, LLC.
